

Laser Industry Contribution Award

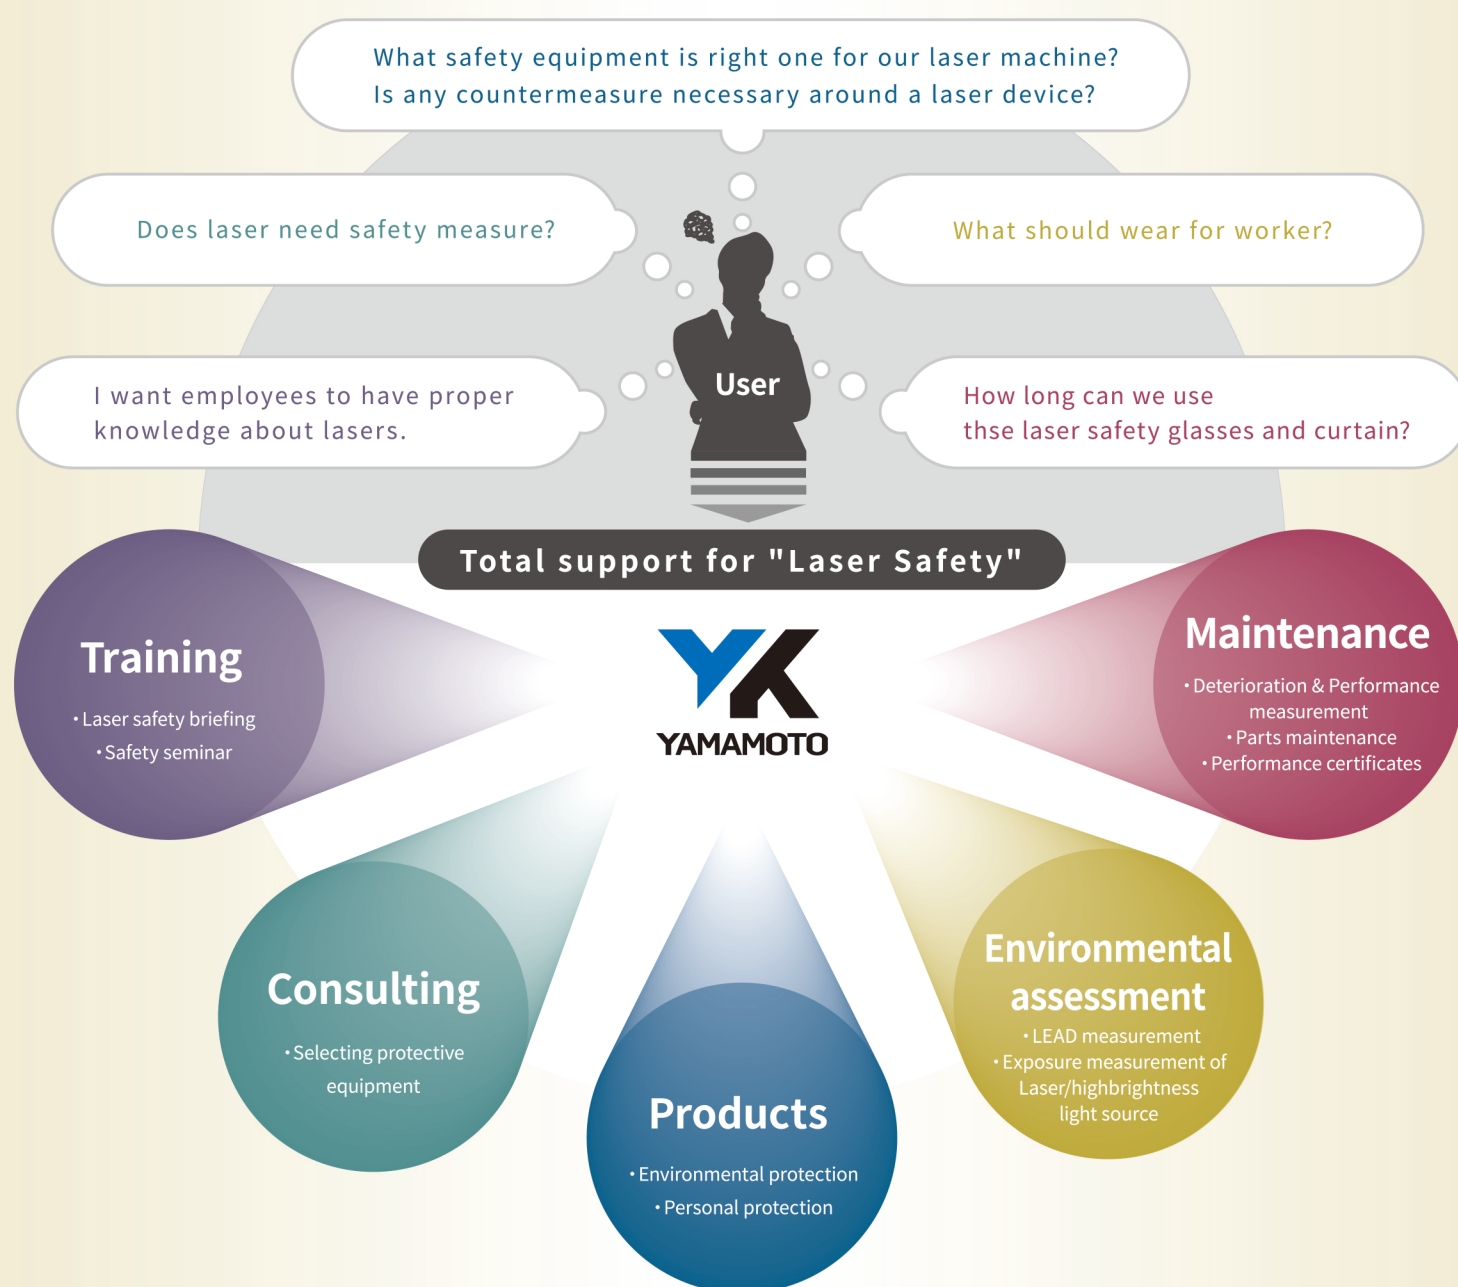

Expansion of laser protection products and laser safety awareness activities to support user environment-building.

YK YAMAMOTO

YAMAMOTO KOGAKU CO., LTD.

YAMAMOTO Laser Safety One-Stop Service

YAMAMOTO KOGAKU CO., LTD. is the first company in Japan to develop and supply laser protective equipment(1987). Since then, along with the development of protective equipment and environmental products suitable for laser light, we continue to provide total support for laser safety, including training and seminars on various lasers and laser light measurement services at work sites.
